## **PSYCHIATRY-**

### **A. Launch of Centre for Neuromodulation & Interventional Psychiatry VMMC & Safdarjung Hospital, New Delhi**

Vardhman Mahavir Medical College (VMMC) & Safdarjung Hospital is pleased to announce the establishment of the **Centre for Neuromodulation and Interventional Psychiatry** under the Department of Psychiatry. This centre introduces advanced, evidence-based neuromodulation therapies for individuals with mental health disorders, enhancing treatment options beyond conventional pharmacological and psychotherapeutic approaches.

The centre now offers **Repetitive Transcranial Magnetic Stimulation (rTMS)** and **Transcranial Direct Current Stimulation (tDCS)** services. These non-invasive brain stimulation techniques are internationally recognized for their effectiveness in conditions such as depression, obsessive-compulsive disorder, anxiety disorders, and other treatment-resistant psychiatric illnesses.

A key highlight of this initiative is that **all services are provided completely free of cost**, ensuring equitable access to cutting-edge mental healthcare for all patients, irrespective of socioeconomic status. The treatments are delivered by trained specialists following established clinical safety protocols.

This initiative reflects VMMC & Safdarjung Hospital's continued commitment to advancing mental healthcare services, promoting innovation in psychiatric treatment, and improving patient outcomes through accessible, state-of-the-art therapeutic interventions.

For further information or referrals, patients and healthcare professionals may contact the Department of Psychiatry, OPD Building 3<sup>rd</sup> Floor, VMMC & Safdarjung Hospital.

### **B. Day care center with 06 beds**

C. The Department of Psychiatry successfully conducted the **Neuromodulation + AI Hands-On Workshop (6–7 December 2025)** in association with the **Academic Psychiatry Society**. The workshop brought together **over 75 participants** from across the country along with distinguished national faculty, fostering rich academic exchange and practical skill development. The scientific program combined conceptual sessions with extensive hands-on training in **tDCS, rTMS, and emerging AI-based applications in neuroscience**, making it a highly engaging and educational experience for all attendees.
