

Batch 2023

			TEACHING SCHEDULE OF MBBS BATCH 2023			
			8-9 AM	9AM-10AM	10AM-1PM	2-3PM
						3-4PM
01/09/2025	MONDAY	OP 1.1 Describe the Physiology of Vision	OP 1.1 Describe the Physiology of Vision	CP	FMT Lecture FM 3.11-3.12: Discuss Regional injuries to head (Scalp wounds, fracture skull, intracranial haemorrhages, coup and contrecoup injuries), neck, chest, abdomen, limbs, genital organs, spinal cord and skeleton.	Lecture FM 3.11-3.12: Describe and discuss injuries related to fall from height and vehicular injuries – Primary and Secondary impact; Secondary injuries, crush syndrome, railway spine
02/09/2025	TUESDAY	EN1.1 Describe the Anatomy of ear	EN1.1 Describe the Physiology of ear	CP	MED IM 2.1 Discuss and describe the epidemiology, antecedent and risk factors for atherosclerosis and ischemic heart disease.	IM 2.2 Discuss the aetiology of risk factors both modifiable and non-modifiable of atherosclerosis and IHD
03/09/2025	WEDNESDAY	OG1.1 Define and discuss birth rate, maternal mortality and morbidity; Lecture; Vertical integration with Community Medicine	OG1.2 Define and discuss perinatal mortality and morbidity including perinatal mortality and morbidity audit; Lecture		GM 1.1 Define and Describe the concept of Public Health GM 1.2 Define health, describe the concept of holistic health including concept of spiritual health & determinants of health	
04/09/2025	THURSDAY	Normal Growth, Development and Nutrition PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development PE1.2 Discuss and describe the patterns of growth in infants, children and adolescents PE 1.3 Discuss and describe the methods of assessment of growth. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents PE 9.2 Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents	Development PE 1.5 Define development and discuss the normal developmental milestones with respect to motor, behaviour, social, adaptive and language PE 1.6 Discuss the methods of assessment of development		Practical: vaccines, cold chain, calculation of vaccine requirement, UPI including Maseon Indra Dhanush	
05/09/2025	FRIDAY		GH			
06/09/2025	SATURDAY	MED IM 2.5 Define the various acute coron	QR1.1 Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage			
07/09/2025	SUNDAY	MED IM 2.5 Define the various acute coron	QR1.1 Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage			
08/09/2025	MONDAY	OP 1.2 Define, classify and describe the types and methods of correcting refractive errors	OP 1.2 Define, classify and describe the types and methods of correcting refractive errors		FMT SDL FM 4.4 - 7. Discuss Indian Medical Register, Enumerate, describe and discuss Rights/privileges/duties of a medical practitioner and Laws in Relation to medical practice. Discuss Ethics related to HIV patients. 4.22 - 24, Define Oath and describe procedure for administration of Oath. Discuss Modified Declaration of Geneva and its relevance. Discuss doctor-patient relationship, professional Secrecy and privileged communication.	SDL FM 4.25-35: Describe and Discuss Clinical research & Ethics, Human experimentation including clinical trials. Discuss Constitution and functions of ethical committees. Ethical Guidelines for Biomedical Research on Human Subjects & Animals. AITO – AETCOM
09/09/2025	TUESDAY	EN1.1 Describe the Anatomy Larynx & Neck	EN1.2 Describe the pathophysiology of common diseases in Throat		MEDIM 1.3 Discuss and describe the lipid cycle and the role of dyslipidemia in the pathogenesis of atherosclerosis	IM 2.4 Discuss and describe the pathogenesis, natural history, evolution and complications of atherosclerosis and IHD
10/09/2025	WEDNESDAY	OG1.2 Define and discuss neonatal mortality and morbidity including neonatal mortality and morbidity audit; Lecture; Horizontal integration with Pediatrics	OG1.3 Define and discuss still birth and abortion; Lecture		M 1.3 Describe the characteristics of agent, host and environmental factors in health and disease and the multifactorial aetiology of disease GM 1.4 Describe and discuss the natural history of disease GM 1.5 Describe the application of interventions at various levels of prevention	
11/09/2025	THURSDAY	PE 3.4 Discuss the approach to a child with developmental delay	PE 2.4 Discuss etiopathogenesis, clinical features and approach to management of a child with short stature		Practical: family planning	

[Signature] Kuhl

12/09/2025	FRIDAY	BU1.1 Describe Basic concepts of homeostasis; enumerate the metabolic changes in injury and their regulators. Vertical Integration Physiology, Biochemistry.	C.M 8.1 describe and discuss the epidemiological and co	FMT SGL (Weapon examination) FM 14.11 Identify & describe weapons of medicolegal importance which are commonly used e.g. lathi, knife, kripai, axe, gandasa, gupti, farsha, dagger, bhalla, razor & stick.	SGL (Weapon examination) FM 14.11 Identify & describe weapons of medicolegal importance which are commonly used e.g. lathi, knife, kripai, axe, gandasa, gupti, farsha, dagger, bhalla, razor & stick.
13/09/2025	SATURDAY	MEDIM 2.13 Discuss and enumerate the in	DR1.1 Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage		
14/09/2025	SUNDAY				
15/09/2025	MONDAY	OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pinhole test and the menace and blink reflexes	OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pinhole test and the menace and blink reflexes	FMT Lecture FM 4.18, 21. Define and discuss Medical Negligence including civil and criminal negligence, contributory negligence, corporate negligence, vicarious liability, Res Ipsa Loquitur, prevention of medical negligence and defences in medical negligence litigation. Describe Products liability and Medical Indemnity Insurance.	Lecture FM 4.18, 21 Define Consent. Describe different types of consent and ingredients of informed consent. Describe the rules of consent and importance of consent in relation to age, emergency situation, mental illness and alcohol intoxication.
16/09/2025	TUESDAY	EN1.2 Describe the pathophysiology of common diseases in Ear	EN2.4 Demonstrate the correct technique of performance and interpret tuning fork tests.	MEDIM 2.14 Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome	IM 2.15 Discuss and describe the medications used in patients with an acute coronary syndrome based on the clinical presentation
17/09/2025	WEDNESDAY	OG19.2 Introduction to contraception; Lecture	OG21.2 Describe & discuss PPIUCD programme; Lecture	C.M 7.5 Describe poverty and social security measures and its relationship to health and disease.	
18/09/2025	THURSDAY	Approach to failure to thrive PE 2.1 Discuss etiopathogenesis, clinical features and approach to management of a child with failure to thrive	PE 3.8 Discuss the etio-pathogenesis, clinical presentation and multi-disciplinary approach in the management of Cerebral palsy	Practical Entomology - Environment	
19/09/2025	FRIDAY	BU1.2 Describe the factors that affect the metabolic response to injury. Vertical Integration Biochemistry.	C.M 8.1 describe and discuss the epidemiological and	FMT SGL (Weapon examination)	SGL (Weapon examination)
20/09/2025	SATURDAY	MEDMED MEDIM 2.13 Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram	DR1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock.		
21/09/2025	SUNDAY				
22/09/2025	MONDAY	OP1.4 Enumerate the indications and describe the principles of refractive Surgery.	OP1.4 Enumerate the indications and describe the principles of refractive Surgery.	FMT Lecture: FM 2.19: Investigation of anaesthetic operative deaths. AITC-Anaesthesia	Lecture FM 4.8 - 10, Discuss Consumer Protection Act-1986 (Medical Indemnity Insurance, Civil Litigations and Compensations) Workman's Compensation Act & ESI Act
23/09/2025	TUESDAY	EN4.5 Elicit document and present a correct history, demonstrate and describe the clinical features and choose the correct investigations and describe the principles of management of OME	EN4.10 Observe and describe the indications for and steps involved in myringotomy	MEDIM 2.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG	IM 2.17 Discuss and describe the indications and methods of cardiac rehabilitation
24/09/2025	WEDNESDAY	OG21.1 Natural & Barrier Methods: Describe and discuss the indications, technique and complications; selection of patients, side effects and failure rate; Lecture	OG21.1 Describe and discuss Female sterilization and puerperal contraception; Lecture	C.M 3.2 (i) Describe concepts of safe & wholesome water, sanitary source of water, water purification processes	

S. Kulkarni

Arjun

25/09/2025	THURSDAY	Common childhood behavioral problems PE 5.5 Describe the clinical features, diagnosis and management of temper tantrums PE 5.6 Describe the clinical features, diagnosis and management of Pica PE 5.7 Describe the clinical features, diagnosis and management of Fussy infant PE 5.8 Discuss the etiology, clinical features and management of Enuresis PE 5.9 Discuss the etiology, clinical features and management of Encopresis	Infant and young child feeding PE 7.2 Explain the physiology of lactation PE 7.3 Describe the composition and types of breast milk and discuss the differences between cow's milk and Human milk PE 7.4 Discuss the advantages of breast milk PE 8.1 Define the term Complementary Feeding PE 8.2 Discuss the principles, the initiation, attributes, frequency, techniques and hygiene related to Complementary Feeding including IYCF		Lecture - Research methodology	
26/09/2025	FRIDAY	STAT 3 Describe basic concepts of descriptive stats	C.M 8.1 describe and discuss the epidemiological and co		FMTSGL (Injury specimens) FM 14.10 Identify & prepare medicolegal inference from specimens obtained from various types of injuries e.g. contusion, abrasion, laceration, firearm wounds, burns, head injury and fracture of bone	SGL (Injury specimens) FM 14.10 Identify & prepare medicolegal inference from specimens obtained from various types of injuries e.g. contusion, abrasion, laceration, firearm wounds, burns, head injury and fracture of bone
27/09/2025	SATURDAY	MED IM 2.19 Discuss and describe the pathogenesis, recognition and management of complications of acute coronary syndromes including arrhythmias, shock, LV dysfunction, papillary muscle rupture and pericarditis	DR1.3 Describe and discuss the aetio-pathogenesis, clinical features, investigations and principles of management of soft tissue injuries			
28/09/2025	SUNDAY					
29/09/2025	MONDAY	OP 1.5 Enumerate, enumerate the types and the mechanism by which strabismus leads to amblyopia	OP 1.5 Enumerate, enumerate the types and the mechanism by which strabismus leads to amblyopia		FMTLecture, Describe therapeutic privilege, Malingering, Therapeutic Misadventure, Professional Secrecy, Human Experimentation	SDL: Discuss medico-legal issues in relation to family violence, violation of human rights, NHRC and doctors. Describe communication between doctors, public and media
30/09/2025	TUESDAY	ENT 1 Describe the Anatomy of & physiology of Nose	ENT 2 Describe the pathophysiology of common diseases in Nose		MEDIM 2.20 Discuss and describe the assessment and relief of pain in acute coronary syndromes	IM2.23 Describe and discuss the indications for nitrates, antiplatelet agents, glycolic III inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes
01/10/2025	WEDNESDAY	OG21.1 Intrauterine devices: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture	OG21.1 Hormonal contraception: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture		C.M 3.1 Air Pollution: health hazards, monitoring and legislation (General Medicine/Respiratory Medicine) C.M 3.1 Radiation and Noise: health hazards, monitoring and legislation (ENT, Radiology) C.M 3.4 Describe the concept of solid waste, human excreta and sewage disposal	
02/10/2025	THURSDAY		Gen			
03/10/2025	FRIDAY	SOX 1 Describe Pathophysiology of shock, types of shock & principles of resuscitation including fluid replacement and monitoring, Vascular migration Pathology, Rheumatology	C.M 8.1 describe and discuss the epidemiological and		FMTSGL (Injury specimens)	SGL (Injury specimens)
04/10/2025	SATURDAY	MED MED IM 1.1 Describe and discuss the epidemiology, pathogenesis, clinical evolution and course of common causes of heart disease including rheumatic, valvular, ischemic, hypertrophic inflammatory 1.2 Describe and discuss the genetic basis of some forms of heart failure	DR1.4 Describes and discuss the principles of management of soft tissue injuries			
05/10/2025	SUNDAY					

[Handwritten signatures]

06/10/2025	MONDAY	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos		FM1 Lecture: Define, classify and describe delusions, hallucinations, illusion, lucid interval and obsessions with exemplification. Classify common mental illnesses including post-traumatic stress disorder (PTSD). Describe & discuss Delirium tremens.	Lecture: Describe Civil and criminal responsibilities of a mentally ill person. Differentiate between true insanity from feigned insanity.
07/10/2025	TUESDAY	EN1.1 Describe the Anatomy Oral cavity and pharynx	EN4.41 Describe the clinical features, investigations and principles of management of acute and chronic abscesses in relation to the neck		MEDIM1.7 Describe and discuss the aetiology, microbiology, pathogenesis and clinical evolution of rheumatic fever, chorea, migratory arthritis, nodules, erythema marginatum, and the complications including infective endocarditis.	FM 1.8 Describe and discuss the clinical presentation and features, diagnosis, recognition and management of acute rheumatic fever.
08/10/2025	WEDNESDAY	OG21.1 Describe and discuss Male contraception including sterilization; Tutorial	OG21.1 Describe and discuss Female sterilization and puerperal contraception; Lecture		MT 1 Define Epidemiology and describe and enumerate the principles, concepts and uses. CM7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases. DMT 3 Enumerate, describe and discuss the sources of epidemiological data.	
09/10/2025	THURSDAY	PEDMicronutrients in health and disease PE 13.2 Describe the causus, diagnosis and management of Fe deficiency PE 13.6 Discuss the National anaemia control program PE 13.11 PE13.13 Discuss the RDA, dietary sources of Calcium and magnesium and their role in health and disease PE 13.12 PE 13.14 Describe the causes, clinical features, diagnosis and management of Ca and Magnesium Deficiency	Approach to obesity PE 11.1 Describe the common etiology, clinical features and management of obesity in children PE 11.2 Discuss the risk approach for obesity and discuss the prevention strategies		Introduction to epidemiology and Types of epidemiological studies	
10/10/2025	FRIDAY	SU2.2 Describe the clinical features of shock and its appropriate treatment	C.M 8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable diseases – Tuberculosis		FMTSQL (Injury report) FM 14.1 Discuss Examination and preparation of Medico-legal report of an injured person with different etiologies in a simulated/ supervised environment	SGL (Injury report) FM 14.1 Discuss Examination and preparation of Medico-legal report of an injured person with different etiologies in a simulated/ supervised environment
11/10/2025	SATURDAY	MEDIM 1.9 Describe and discuss the clinical presentation and features, diagnosis, recognition and management of acute rheumatic fever. IM 1.27 Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease	OR1.5 Describe and discuss the aetio-pathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip			
12/10/2025	SUNDAY					
13/10/2025	MONDAY	OP2.2 Demonstrate the symptoms & clinical signs of conditions enumerated in OP 2.1	OP2.2 Demonstrate the symptoms & clinical signs of conditions enumerated in OP 2.1		FMT Lecture: Describe the Indian Mental Health Act, 1967 with special reference to admission, care and discharge of a mentally ill person.	Lecture: FM 2.20, 2.22 Asphyxia: Definition, classification, features; post mortem findings. Traumatic Asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia.
14/10/2025	TUESDAY	EN4.2 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear.	EN4.1 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otitis.		IM 1.4 Stage heart failure	IM 1.5 Describe, discuss and differentiate the processes involved in RFA L heart failure, systolic vs diastolic failure.
15/10/2025	WEDNESDAY	OG21.1 Intrauterine devices: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture	OG21.1 Hormonal contraception: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture		C.M7.5 Enumerate, define, describe and discuss epidemiological study designs. C.M7.7 Describe and demonstrate the steps in the investigation of an outbreak of communicable disease and describe the principles of control measures. (Descriptive Analytical Epidemiology + Outbreak Investigation)

Handwritten signature: gk...

16/10/2025	THURSDAY	PED/Approach to LBW Discuss the clinical characteristics, complications and management of Low birth weight (preterm and small for gestation)	PE 20.15 Discuss the etiology, clinical features and management of Neonatal seizures	Measurement of association and exercises	
17/10/2025	FRIDAY	AETCOM Su2.2 Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care.	C M 8.3 Enumerate and describe National TB Elimination Program including prevention and treatment of a case	FMTSGL (Injury report) FM 14.1	SGL (Injury report) FM 14.1
18/10/2025	SATURDAY	MEDIM 1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations	ORT 5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints; shoulder, knee, hip		
19/10/2025	SUNDAY				
20/10/2025	MONDAY		OH		
21/10/2025	TUESDAY	EN2.15 Describe the national programs for prevention of deafness, cancer, noise & environmental pollution	EN4.15 Describe the clinical features, investigations and principles of management of Noise Induced Hearing Loss.	MEDIM 1.7 Enumerate, describe and discuss the factors that exacerbate heart failure including ischemia, arrhythmias, anemia, hypoxemia, dietary factors, drugs etc.	FM 1.5 Describe and discuss the pathogenesis and development of common arrhythmias involved in heart failure particularly atrial fibrillation
22/10/2025	WEDNESDAY	OG21.1 Describe and discuss Male contraception including sterilization; Tutorial	OG21.1 Nonhormonal contraception and emergency contraception: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture	C M 7.6 Enumerate and evaluate the need of screening tests C M 7.8 Describe the principles of association, causation and biases in epidemiological studies (Experimental), uses Association & Causation & Screening	
23/10/2025	THURSDAY	PEDPE 20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	PE 20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	Sampling technique and literature review	
24/10/2025	FRIDAY	BUS 1 Describe the indications and appropriate use of blood and blood products and complications of blood transfusion. Vertical Integration Pathology.	C M 8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable diseases - Acute Diamond Disease (Including Cholera)	FMTSGL FM 3.6-(Injury): Discuss Factors influencing infliction of injuries and healing. Discuss Healing of injury and fracture of bones with its medico-legal importance. Describe Wound as a cause of death: Primary and Secondary. Describe and discuss Examination and certification of wounds. AITO-ORTHOPAEDICS	FMTSGL FM 3.6-(Injury): Discuss Factors influencing infliction of injuries and healing. Discuss Healing of injury and fracture of bones with its medico-legal importance. Describe Wound as a cause of death: Primary and Secondary. Describe and discuss Examination and certification of wounds. AITO-ORTHOPAEDICS
25/10/2025	SATURDAY	MEDIM 1.23 Describe, prescribe and comm	ORT.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip		
26/10/2025	SUNDAY				
27/10/2025	MONDAY	OP2.3 Demonstrate under supervision clinical procedures performed in the lid including : bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. Massage technique in congenital Dacryocystitis, and trichiatric cilia removal by epilation.	OP2.3 Demonstrate under supervision clinical procedures performed in the lid including : bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. Massage technique in congenital Dacryocystitis, and trichiatric cilia removal by epilation.	FMTLecture: FM 2.21. Mechanical asphyxia: Hanging and strangulation including examination, preservation and dispatch of ligature material	Lecture: FM 2.23. Drowning types: patho-physiology, clinical features, post-mortem findings and medico-legal aspects of drowning, diatom test and, gitter test
28/10/2025	TUESDAY	EN4.16 Define Sudden Sensorineural Hearing Loss. Describe the pathophysiology, investigations and principles of management of Sudden Sensorineural Hearing Loss	EN4.17 Explain the role of otoacoustic emissions in newborn hearing screening.	MEDIM 1.25 Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation	FM 1.25 Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation
29/10/2025	WEDNESDAY	OG8.1 Enumerate describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors; Tutorial	OG8.7 Enumerate the indications for and types of vaccination in pregnancy; Lecture	C M4.1 Describe various methods of health education with their advantages and disadvantages (K+S) C M4.2 (i) Describe the methods of organizing health promotion and education activities at individual, family and community settings C M4.2 (ii) Describe the method of organizing counselling sessions at individual, family and community settings (K+S) (Health Promotion & Education)	

S. K. Kulkarni

30/10/2025	THURSDAY	PEDPE 21.1 Enumerate the etio-pathogenesis, clinical features, complications and management of Urinary Tract infection in children	PE 27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children		Types of data, Presentation of data and examples	
31/10/2025	FRIDAY	SUS 3 Elicit patient and family history for blood transfusion and blood donation	C.M 8.1 describe and discuss the epidemiological and co		FMTSQL FM 3.6 (Injury): Discuss Factors influencing infliction of injuries and healing. Discuss Healing of injury and fracture of bones with its medico-legal importance. Describe Wound as a cause of death: Primary and Secondary. Describe and discuss Examination and certification of wounds. AITO-ORTHOPAEDICS	FMTSQL FM 3.6 (Injury): Discuss Factors influencing infliction of injuries and healing. Discuss Healing of injury and fracture of bones with its medico-legal importance. Describe Wound as a cause of death: Primary and Secondary. Describe and discuss Examination and certification of wounds. AITO-ORTHOPAEDICS
01/11/2025	SATURDAY	MED Revision class/ Cardiology	OR2.1 Describe and discuss the mechanism of injury, clinical features, investigations and pain management of fracture of clavicle			
02/11/2025	SUNDAY					
03/11/2025	MONDAY	OP 2.4 Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis.	OP 2.4 Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis.		FMTLecture: FM 3.13. Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of Rape (Section 375, 376 (PC) and recent amendments. AITO Obstetrics & Gynaecology	Lecture: FM 3.16-17. Adultery and unnatural sexual offences: sodomy, incest, bestiality, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases. Sexual perversions - fetishism, transvestism, voyeurism, sadism, necrophilia, masochism, exhibitionism, frotteurism, Necrophilia. AITO Obstetrics & Gynaecology and Psychiatry
04/11/2025	TUESDAY	EN2.11 Describe and identify by clinical examination of premalignant ENT diseases	EN2.11 Describe and identify by clinical examination malignant ENT diseases		MEDM 1.26 Enumerate the causes of adult presentations of congenital	IM 1.26 Elicit history and present an appropriate history - demonstrate correctly general examination, relevant clinical findings and formulate assessment and present a management plan for an adult patient presenting with a common form of congenital heart disease
05/11/2025	WEDNESDAY		OR4			
06/11/2025	THURSDAY	PE 21.3 Discuss the approach and referral criteria to a child with Proteinuria	PE 21.2 Enumerate the etio-pathogenesis, clinical features, complications and management of acute post-streptococcal Glomerular Nephritis in children		Measures of central tendency and dispersion and exercises and folder evaluation.	
07/11/2025	FRIDAY	SU4.1 Elicit document and present history in a case of Burns and perform physical examination. Describe Pathophysiology of Burns. Vertical Integration Physiology SU4.2 Describe Clinical features, Diagnose type and extent of burns and plan appropriate treatment.	C.M 8.1 describe and discuss the epidemiological and co		FMTSQL 14.14 (Examination of the rape survivor) FM 3.14. Examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases	FMTSQL 14.14 (Examination of the rape survivor) FM 3.14. Examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases
08/11/2025	SATURDAY	MED SDL -1 Approach to breathlessness	OR2.2 Describe and discuss the mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus			
09/11/2025	SUNDAY					
10/11/2025	MONDAY	OP 2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis	OP 2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis		FMTLecture FM 3.14 Examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases	Lecture: FM 14.15 To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence
11/11/2025	TUESDAY	EN4.27 Elicit document and present a correct history demonstrate and describe the clinical features of Allergic Rhinitis	EN4.27 Choose the correct investigations and describe the principles of management of Allergic Rhinitis.		MEDM 8.1 Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension.	IM 8.1 Define and classify hypertension. IM 8.3 Describe and discuss the differences between primary and secondary hypertension.

[Handwritten signature]

[Handwritten signature]

12/11/2025	WEDNESDAY	OG 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy; Lecture	OG21.1 Counseling for puerperum contraception; Tutorial		LECTURE: Define & Discuss strategies for early identification, prevention and control of Emerging and Re-emerging infectious diseases & COVID-19	
13/11/2025	THURSDAY	PE 21.5 Enumerate the etio-pathogenesis, clinical features, complications and management of Acute Renal Failure in children	PE 21.6 Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children		Tests of significance and exercises	
14/11/2025	FRIDAY	SDU-2 Discuss the Medico-legal aspects of burn injuries. SDU-4 Communicate and counsel patients and families on the outcome and management of burn-injury, emergency and care.	C.M 8.1 describe and discuss the epidemiological and co		FMTSGL 14.14 (Examination of the rape survivor)	FMTSGL 14.14 (Examination of the rape survivor)
15/11/2025	SATURDAY	MEDIM 8.2 Describe and discuss the pathophysiology of hypertension IM 8.3 Describe and discuss the genetic basis of hypertension	DR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain Describe and discuss the mechanism of injury.			
16/11/2025	SUNDAY					
17/11/2025	MONDAY	OP 2.6 Enumerate the causes and describe the differentiating features and clinical features and management of proptosis.	OP 2.6 Enumerate the causes and describe the differentiating features and clinical features and management of proptosis.		FMTLecture: FM 3.15 Examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and despatch of trace evidences in such cases.	Lecture: FM 14.14 To examine & prepare report of an alleged accused in rape/unnatural sexual offence in a simulated, supervised environment
18/11/2025	TUESDAY	EN4.26 Elicit document and present a correct history, demonstrate and describe the clinical features of Vasomotor Rhinitis.	EN4.28 Choose the correct investigations and describe the principles of management of Vasomotor Rhinitis.		MED SDU-2 Approach to chest pain	SDU-2 Approach to chest pain
19/11/2025	WEDNESDAY	OG33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer; Lecture	OG33.4 Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's Iodine (VILI), pap smear and colposcopy; Lecture		LECTURE - C.M 18.1 Define and describe the concept of International Health C.M 18.2 Describe roles of various international health agencies FM 3.2 Interdisciplinary Collaboration, International Health	
20/11/2025	THURSDAY	PE 23.1 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases-VSD, ASD and PDA	PE 23.2 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases -Fallot's Physiology		Legislate Management and exercises	
21/11/2025	FRIDAY	SDU-1 Describe medical wound healing and factors affecting healing- Vertical Integration Pathology SDU-2 Elicit, document and present a history in a patient presenting with wounds.	C.M 8.1 describe and discuss the epidemiological and co		FMTSGL FM 14.15 (Examination of survivor of unnatural sexual offence). To examine & prepare medico-legal report of a victim of unnatural sexual offence in a simulated/ supervised environment	FMTSGL FM 14.15 (Examination of survivor of unnatural sexual offence): To examine & prepare medico-legal report of a victim of unnatural sexual offence in a simulated/ supervised environment
22/11/2025	SATURDAY	MED-IM 8.6-Define, describe and discuss and recognise hypertensive urgency and emergency	DR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with			
23/11/2025	SUNDAY					
24/11/2025	MONDAY	OP 2.7 Classify the various types of orbital tumors. Differentiate the symptoms and signs of the presentation of various types of ocular tumors.	OP 2.7 Classify the various types of orbital tumors. Differentiate the symptoms and signs of the presentation of various types of ocular tumors.		FMTLecture: FM 3.22-23. Impotence, sterility, frigidity, sexual dysfunction, premature ejaculation. Causes of impotence and sterility in male and female. Sterilization of male and female; artificial insemination. Test Tube Baby, surrogate mother, hormonal replacement therapy with respect to appropriate national and state laws.	Lecture: FM 3.18-20: Anatomy of male and female genitalia. Hymen and its types and medico-legal importance. Virginity, defloration, legitimacy and its medicolegal importance. Pregnancy and delivery. Disputed paternity.
25/11/2025	TUESDAY	EN4.42 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of hoarseness of voice.	EN4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy		MEDIM 8.7 Describe and discuss the clinical manifestations of the various etiologies of secondary causes of hypertension	IM 8.8 Describe, discuss and identify target organ damage in hypertension

A. K. Kulkarni

26/11/2025	WEDNESDAY	OG12.1 Hypertensive disorders of pregnancy. Define, classify and describe the etiology and pathophysiology, early detection; Lecture	OG12.1 Hypertensive disorders of pregnancy: investigations; principles of management; Tutorial		C.M10.3 Describe Universal Immunization Program, Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs	
27/11/2025	THURSDAY	PE 25.1 Discuss the etio-pathogenesis, clinical presentation and management of Malabsorption in Children and its causes including celiac disease	PE 26.1 Discuss the etio-pathogenesis, clinical features and management of acute hepatitis in children		Revision Test	
28/11/2025	FRIDAY	Sub 1 Differentiate the various types of wounds, lacerations and observe management of wounds. Sub 4 Discuss medical legal aspects of wounds	C.M 8.1 describe and discuss the epidemiology and control measures		FMTSGL FM 14.15 (Examination of survivor of unnatural sexual offence)	FMTSGL FM 14.15 (Examination of survivor of unnatural sexual offence):
29/11/2025	SATURDAY	*MED IM 8.12 Describe the appropriate diagnostic work up based on the presumed aetiology. IM 8.13 Enumerate the indications for and interpret the results of: CBC, Urine routine, BUN, Cr, Electrolytes, Uric acid, ECG	OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit			
30/11/2025	SUNDAY					
01/12/2025	MONDAY	OP 2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral	OP 2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral		FMTLecture FM3.27. Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. FM3.28. Describe evidences of abortion - living and dead, duties of doctor in case of abortion, investigations of death due to criminal abortion, MTP Act 1971	SDL FM3.26. Discuss the national Guidelines for accreditation, supervision & regulation of ART Clinics in India. Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005
02/12/2025	TUESDAY	EN4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of Nasal Obstruction	EN4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of Nasal Obstruction		MEDIM 11.1 Define and classify diseases	IM 11.4 Describe and discuss the general background and the influence of the environment on diseases
03/12/2025	WEDNESDAY	OG12.1 Eclampsia: Diagnosis, management, complications; Lecture	OG12.1 Eclampsia: management drill; Tutorial		C.M5.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Typhoid, Food poisoning, Acute Diarrhoeal diseases & Cholera)	
04/12/2025	THURSDAY	PE 26.2 Discuss the etio-pathogenesis, clinical features and management of Fulminant Hepatic Failure in children	PE 26.3 Discuss the etio-pathogenesis, clinical features and management of chronic liver diseases in children		M 17.1 Define and describe the concept of health care to community C.M 17.3 Describe primary health care delivery in India. System PM 3.2 List four principles of primary healthcare	
05/12/2025	FRIDAY	Sub 1 Define and describe the aetiology and pathogenesis of surgical infections. Vertical Integration Microbiology. Sub 2 Enumerate Prophylactic and therapeutic antibiotics Plan appropriate management	C.M 8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable diseases - Malaria		FMTSGL (Age of Fetus) FM 14.13. Perform age estimation of foetus by post-mortem examination	
06/12/2025	SATURDAY	MED IM 11.5 Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	OR2.5 Describe and discuss the aetio-pathogenesis, clinical features, mechanism of injury, investigations and principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury			
07/12/2025	SUNDAY

08/12/2025	MONDAY	OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, and pain.	OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, and pain.	FMTLecture FM2.27-28. Infantile signs of intrauterine death, signs of live birth, viability of fetus, Hydrostatic test, Sudden infant Death syndrome and Munchausen's syndrome by proxy	Lecture FM3.29. Child abuse and battered baby syndrome FM2.28. Clinical features, post-mortem findings and medico-legal aspects of death due to starvation and neglect
09/12/2025	TUESDAY	EN4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe principles of management of acute and chronic tonsillitis	EN4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe principles of management of acute and chronic tonsillitis	MEDIM 1.14 Describe and discuss the pathogenesis and predisposing factors, recognition and management of diabetic emergencies FM 11.13 Describe and recognise the clinical features of patients who present with a diabetic emergency	IM 11.10 Generate a differential diagnosis and propose based on clinical features that suggest a specific aetiology. IM 11.13 Recognise the presentation of diabetic emergencies and outline the principles of therapy
10/12/2025	WEDNESDAY	OG12.2 Anemia in pregnancy: Define, Classify and describe the etiology, pathophysiology, diagnosis; Lecture; Horizontal integration with General Medicine	OG12.2 Anemia in pregnancy: investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications; Tutorial	CAM 1.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Polio)	
11/12/2025	THURSDAY	PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born	PE 28.19 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children	CAM 17.5 Describe health care delivery system in India, including: staffing and responsibilities	
12/12/2025	FRIDAY	SU7.1 Describe the Planning and conduct of Surgical audit Vertical Integration Community Medicine.	CAM 8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable Diseases - Filaria, Kala-azar	FMTSGL (Age of Fetus)	FMTSGL (Age of Fetus)
13/12/2025	SATURDAY	MEDIM 11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis IM 11.24 Describe the precipitating	OR2.5 Describe and discuss the aetopathogenesis, clinical features, mechanism of injury, investigations and principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury		
14/12/2025	SUNDAY				
15/12/2025	MONDAY	OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	FMTSDL FM 3.30, 31, 33. Torture, identification of injuries caused by torture and its sequelae; management of torture survivors. Torture and Human rights. Guidelines and Protocols of National Human Rights Commission regarding torture. Should be able to demonstrate the professionalism while dealing with victims of torture and human right violations, sexual assaults- psychological consultation, rehabilitation	SDL FM 4.13-15. Social aspects of Medico-legal cases with respect to victims of assault, rape, attempted suicide, homicide, domestic violence, dowry-related cases. Challenges in managing medico-legal cases including: 1. Development of skills in relationship management, Human behaviour, communication skills, conflict resolution techniques 2. Principles of handling pressure definition, types, causes, sources and skills for managing the pressure.
16/12/2025	TUESDAY	EN4.19 Describe the clinical features, investigations and principles of management of Vertigo	EN4.20 Describe the clinical features, investigations and principles of management of Meniere's Disease	MEDIM 11.14 Recognise the presentation of hypoglycaemia and outline the principles of its therapy	IM 11.22 Enumerate the causes of hypoglycaemia and describe the counter hormonal response and the initial approach and treatment
17/12/2025	WEDNESDAY	OG12.3 Diabetes in pregnancy: Define, Classify and describe the etiology, pathophysiology, diagnosis; Lecture	OG12.3 Diabetes in pregnancy: investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications; Tutorial	CAM 1.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Viral Hepatitis)	
18/12/2025	THURSDAY	PE20.17 Discuss the etiology, clinical features and management of Perinatal infections	PE20.20 Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen	Universal Health Coverage/ National Health Mission	

S. K. Kulkarni *g. kumar*

19/12/2025	FRIDAY	SU7.2 Describe the principles and steps of clinical research in General Surgery: Vertical Integration Community Medicine.	C.M.8.1 describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable diseases – Japanese Encephalitis & Yellow Fever		FMTSG1 (Trace evidences/slides) FMTFM 14.7 Demonstrate & identify that a particular stain is blood and identify the species of its origin	FMTSG1 (Trace evidences/slides) FMTFM 14.7 Demonstrate & identify that a particular stain is blood and identify the species of its origin
20/12/2025	SATURDAY	MEDIM 11.16 Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions	OP2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius			
21/12/2025	SUNDAY					
22/12/2025	MONDAY	OP3.3 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of various causes of conjunctivitis	OP3.3 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of various causes of conjunctivitis.		Lecture: FM2.24. Thermal death: clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat and cold.	Lecture: FM2.25. Types of injuries, clinical features, pathophysiology, post-mortem findings and medico-legal aspects in cases of electrocution
23/12/2025	TUESDAY	EN4.30 Elicit, document and present a correct history, demonstrate and describe the clinical features, and choose the correct investigations and describe the principles of management of Epistaxis	EN4.35 Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx		MEDIM 11.17 Outline a therapeutic approach to therapy of Diabetes based on presentation, severity and complications in a non-collective manner	OP1.13 Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes, including neurodegeneration, retinopathy, nephropathy, hypertension, dyslipidemia and cardiovascular disease
24/12/2025	WEDNESDAY	OG12.4 Heart diseases in pregnancy: Define, classify and describe the etiology, pathophysiology, diagnosis; Lecture	OG12.4 Heart diseases in pregnancy: investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications, Tutorial		C.M.8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (ARI, Influenza, Covid-19)	
25/12/2025	THURSDAY		ENT			
26/12/2025	FRIDAY	SUS.1 Describe the principles of Ethics as it pertains to General Surgery Vertical Integration Forensic Medicine, AETCOM	C.M.8.3 Enumerate and describe National Vector Borne Disease Control Programme including prevention and treatment of a case		FMT	
27/12/2025	SATURDAY

09/02/2026	MONDAY	OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration	OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration		FMTLecture: FM9.4: Describe General Principles and basic methodologies in treatment of poisoning: with regard to Ethanol, methanol, ethylene glycol	Lecture: FM9.2: Describe General Principles and basic methodologies in treatment of poisoning: with regard to Phosphorus, Iodine, Barium
10/02/2026	TUESDAY	EN4.25 Elicit, document and present a correct history, demonstrate and describe the clinical features of Nasal polyps.	EN4.25: Choose the correct investigations and describe the principles of management of Nasal Polyps		MEDIM 20.8 Describe the diagnosis, initial approach, stabilization and therapy of alcohol poisoning	IM 20.5: Describe the diagnosis, initial approach, stabilization and therapy of bleeding ulcers
11/02/2026	WEDNESDAY	OG21.1 Oral hormonal contraception; Seminar	OG21.1 Hormonal contraception: Injectable, ring, patch, implants, intrauterine devices; Seminar		PM 3.7 Outbreak Management including: Quarantine, Isolation, Contact Tracing (DSP) Case scenario	
12/02/2026	THURSDAY	PE27.9 Discuss oxygen therapy, in Pediatric emergencies and modes of administration	PE34.2 Discuss the various diagnostic tools for childhood tuberculosis PE34.13 Enumerate the newer diagnostic tools for Tuberculosis including BACTEC CRNAAT and their indications Vertical integration with microbiology		CM 3.1: Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at primary care level for Communicable diseases - Leprosy CM 3.3 Describe National Leprosy Elimination Programme including prevention and treatment of a case	
13/02/2026	FRIDAY	AETCOM SU10.2 Describe the steps and obtain informed consent in a simulated environment	CM 3.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for non-communicable diseases (Cancer-Breast Cancer, Cervical Cancer etc)		FMTSGL: (Skeletal remains) FM 14.9: Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment	FMTSGL: (Skeletal remains) FM 14.9: Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment
14/02/2026	SATURDAY	MED-S-D-L- 4: Anaphylaxis	OR2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principle of management of acetabular fracture			
15/02/2026	SUNDAY					
16/02/2026	MONDAY	OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis	OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis		FMTLecture: FM9.5: Describe General Principles and basic methodologies in treatment of poisoning: with regard to Organophosphates, Carbamates, Organochlorines, Pyrethroids, Paraquat, Aluminium and Zinc phosphide	SOL FM 9.5: Describe General Principles and basic methodologies in treatment of poisoning: with regard to Ammonia, carbon monoxide, hydrogen cyanide & derivatives, methyl isocyanate, tear (riot control) gases
17/02/2026	TUESDAY	REVISION CLASS			SU11.4 Enumerate the indications and principles of day care General Surgery	SU11.4 Enumerate the indications and principles of day care General Surgery
18/02/2026	WEDNESDAY	OG21.1: Copper Intrauterine devices; Seminar	OG21.1 Nonhormonal and emergency contraception; Seminar		PM 3.3 Operational Research: Field work, Surveillance & Operational Research	
19/02/2026	THURSDAY	PE21.17 Describe the etiopathogenesis, grading, clinical features and management of hypertension in children	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children		CM 11.1 Enumerate and describe the presenting features of patients with occupational illness including Agriculture CM 11.3 Enumerate and describe specific occupational health hazards, risk factors and preventive measures CM 11.2 Describe the role, benefits and functioning of the employee's state insurance scheme CM 11.4 Describe the principles of ergonomics in health preservation CM 11.5 Describe occupational disorders of health professionals and their prevention & management	
20/02/2026	FRIDAY	SU11.6 Describe Principles of safe General Surgery	CM 3.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non-Communicable diseases (Cancer Registry)		FMTSGL: (Skeletal remains) FM 14.9: Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment	FMTSGL: (Skeletal remains) FM 14.9: Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment
21/02/2026	SATURDAY	MEDIM 21.1 Describe the initial approach	OR2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principle of management of acetabular fracture			
22/02/2026	SUNDAY

23/02/2026	MONDAY	OP4.3 Enumerate the causes of corneal edema	OP4.3 Enumerate the causes of corneal edema		FMT Lecture: FM 10.1. Describe General Principles and basic methodologies in treatment of poisoning: with regard to: i. Antipyretics – Paracetamol, Salicylates ii. Anti-infectives (Common antibiotics – an overview) iii. Neuropsychotoxicology Barbiturates, benzodiazepines, phenytoin, lithium, haloperidol, neuroleptics, tricyclics	Lecture: FM 14.2. Demonstrate the correct technique of clinical examination in a suspected case of poisoning & prepare medico-legal report in a simulated/ supervised environment
24/02/2026	TUESDAY	REVISION CLASS			SM12.1 Enumerate the causes and consequences of malnutrition in the surgical patient Vertical Integration Physiology-SU12.3 Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications	
25/02/2026	WEDNESDAY	OG21.1 Male contraception; Male and Female sterilization; Seminar	OG33.3 Screening for cervical cancer; Seminar		FM 3.2 Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics International Health- case scenario discussion	
26/02/2026	THURSDAY	Ophthalmology Exam				
27/02/2026	FRIDAY	ENT Exam				
28/02/2026	SATURDAY	FMT Exam				
01/03/2026	SUNDAY					
02/03/2026	MONDAY	Community Medicine Exam				
03/03/2026	TUESDAY	Medicine Exam				
04/03/2026	WEDNESDAY		OH			
05/03/2026	THURSDAY					
06/03/2026	FRIDAY					
07/03/2026	SATURDAY					
08/03/2026	SUNDAY					
09/03/2026	MONDAY	OP4.4 Enumerate the causes and discuss the management of dry eye	OP4.4 Enumerate the causes and discuss the management of dry eye		FMTSDL FM 12.1. Tobacco, cannabis, amphetamines, cocaine, hallucinogens, designer drugs & solvent	Lecture: FM 13.1 – 2. Toxic pollution of environment, its medico-legal aspects & toxic hazards of occupation and industry. Medico-legal aspects of poisoning in Workman's Compensation Act
10/03/2026	TUESDAY	EN4.48 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Airway Emergencies	EN4.59 Elicit document and present a correct history, clinical features, pathophysiology and the principles of management of Sorens Otitis Media		SM12.2 Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient Vertical Integration Physiology	
11/03/2026	WEDNESDAY	OG12.1 Hypertensive disorders of pregnancy; Seminar & Case Based Discussion	OG12.1 Eclampsia; management; Self directed learning		LECTURE: C.M13.1 Define and describe the concept of Disaster management. C.M13.2 Describe disaster management cycle. C.M13.3 Describe man made disasters in the world and in India. C.M13.4 Describe the details of the National Disaster management Authority.	
12/03/2026	THURSDAY	PE15.1 Discuss the fluid and electrolyte requirement in health and disease PE15.2 Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management	PE 34.18 Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Dengue, Chikungunya and other vector born diseases. Vertical integration with microbiology		AETCOM (3.5A)- identify, discuss and defend medico-legal, socio-cultural, professional and ethical issues as it pertains to the physician-patient relationship (including fiduciary duty)	
13/03/2026	FRIDAY	SU12.1 Describe the immunological basis of organ transplantation Vertical integration: Microbiology	C.M12.1 Define and describe the concept of Geriatric services C.M12.2 Describe health problems of aged population C.M12.3 Describe the prevention of health problems of aged population C.M12.4 Describe National program for elderly		FMTSGL (Skeletal remains) FM 14.9. Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment	

Shubli

14/03/2026	SATURDAY	MEDIM 21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therapy	OR2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal tibia			
15/03/2026	SUNDAY					
16/03/2026	MONDAY	Self Directed Learning	Self Directed Learning		FMTLecture: FM 11.1: Snake bite, scorpion sting, bee and wasp sting and spider bite	Lecture: FM 14.17 To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, opium
17/03/2026	TUESDAY	EN4.31 Describe the clinical features, investigations and principles of management of Tumors	EN4.13 Describe the clinical features, investigations and principles of management of Otosclerosis		SUT1.2 Discuss the Principles of immediate/suppressive therapy. Enumerate indications, describe surgical principles, management of organ transplantation/Vertical integration: Microbiology, Pharmacology	
18/03/2026	WEDNESDAY	OG18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment; Small Group Discussion; Horizontal integration with Paediatrics	OG18.3 Describe and discuss the diagnosis of birth asphyxia; Lecture; Horizontal integration with Paediatrics		CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Rubella, Yellow fever, Plague)	
19/03/2026	THURSDAY	Role of micronutrients in health and disease PE12.6 Discuss the RDA, dietary sources of Vitamin D and their role in Health and disease PE12.7 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin D	PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism PE 4.5 Discuss the role of Child Guidance clinic in children with Developmental problems Horizontal integration with Psychiatry		AETCOM 3.5.10 Identify and discuss physician's role and responsibility to society and the community that they he serves	
20/03/2026	FRIDAY	AETCOM SUT1.3 Discuss the legal and ethical issues concerning organ donation	CM15.1 Define and describe the concept of mental Health CM15.2 Describe warning signals of mental health disorder CM15.3 Describe National Mental Health program & National Mental Health bill		FMTSGL 14.17 (Toxicology specimens) To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco	SGL 14.17 (Toxicology specimens) To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco
21/03/2026	SATURDAY		GH			
22/03/2026	SUNDAY					
23/03/2026	MONDAY	OP4.5 Enumerate the causes of corneal blindness	OP4.5 Enumerate the causes of corneal blindness		FMTLecture: Describe the general principles of Analytical Toxicology and give a brief description of analytical methods available for toxicological analysis: Chromatography – Thin Layer Chromatography, Gas Chromatography, Liquid Chromatography and Atomic Absorption Spectroscopy	Lecture: FM 14.3: Assist and demonstrate the proper technique in collecting, preserving and dispatch of the exhibits in a suspected case of poisoning, along with clinical examination
24/03/2026	TUESDAY	EN4.33 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Acute & Chronic Sinusitis	EN4.32 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Acute & Chronic Sinusitis		AETCOM SUT1.3 Counsel patients and relatives on organ donation in a simulated environment	
25/03/2026	WEDNESDAY	OG18.4 Describe the principles of resuscitation of the newborn and enumerate the common problems encountered; Lecture; Horizontal integration with Paediatrics	Revision / Pending Classes decided by Students /Faculty		CM 5.5 Define and describe common nutrition related health disorders (including macro-PBM, Micronutrient, Zn, iodine, Vit A), their control and management CM 5.6 Describe the methods of Nutritional Surveillance Principles of Nutritional education and rehabilitation in the context of socio-cultural factors. Describe and discuss the importance and methods of food fortification and effects of additives and adulteration	
26/03/2026	THURSDAY	PE 19.1 National Immunization Program Vertical integration with community medicine	PE23.3 Discuss the etio-pathogenesis, clinical presentation and management of cardiac failure in infant and children Vertical integration with physiology		RECURRY	

[Handwritten signature]

[Handwritten signature]

27/03/2026	FRIDAY	SD14.1 Describe Aseptic Techniques, sterilisation and disinfection; Vertical integration Microbiology	CM10.1 Describe the current status of Reproductive Maternal new born child health (including RMNCH+A Program)	FMTSGL 14.17 (Toxicology specimens) To identify & draw medico-legal inference from common poisons e.g. datura, castor, cannabis, opium, aconite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco	SGL 14.17 (Toxicology specimens) To identify & draw medico-legal inference from common poisons SGL 14.17 (Toxicology specimens) To identify & draw medico-legal inference from common poisons e.g. datura, castor, cannabis, opium; aconite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco
28/03/2026	SATURDAY	MEDIM 21.4 Enumerate the commonly observed drug overdose in your area and describe their toxicology, clinical features, prognosis and approach to therapy	OR2.10 Describe and discuss the aetopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur		
29/03/2026	SUNDAY				
30/03/2026	MONDAY	OP4.6 Enumerate the indications and the types of keratoplasty	OP4.6 Enumerate the indications and the types of keratoplasty	FMTSGL (Examination of a Drunk person)	FM 14.15 To examine & prepare medico-legal report of drunk person SGL (Examination of a Drunk person)
31/03/2026	TUESDAY		GH		
01/04/2026	WEDNESDAY	OG1.1 Define and discuss birth rate, maternal mortality and morbidity; Lecture; Vertical integration with Community Medicine	OG1.2 Define and discuss perinatal mortality and morbidity including perinatal mortality and morbidity audit; Lecture	CM 3.6 Enumerate and discuss the national nutrition Policy, important National Nutrition Programs including the Integrated Child Development services Scheme (ICDS) etc.	
02/04/2026	THURSDAY	PE 10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM) PE 10.6 Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets Vertical integration with physiology	PE12.1 Discuss the RDA, dietary sources of Vitamin A and their role in Health and disease PE12.2 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin A	AETCOM- FMT	
03/04/2026	FRIDAY		GH		
04/04/2026	SATURDAY	MEDIM 21.6 Describe the medico legal aspects	OR2.11 Describe and discuss the aetopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) fracture patella (b) fracture distal femur (c) fracture proximal tibia with special focus on neurovascular injury and compartment syndrome		
05/04/2026	SUNDAY				
06/04/2026	MONDAY	OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy	OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy	FMTSGL FM 10.1. Describe General Principles and basic methodologies in treatment of poisoning, with regard to: Narcotic Analgesics, Anaesthetics, and Muscle Relaxants	Lecture: Cardiovascular Toxicology Cardiotoxic plants – oleander, odollam, aconite, digitalis, Gastro Intestinal and Endocrinal Drugs – Insulin
07/04/2026	TUESDAY	EN4.49 Elicit document and present a correct history, demonstrate and describe the clinical features of foreign bodies in the air & food Passages	EN5.1 Choose the correct investigations and describe the principles of management of foreign bodies in the air & food Passages	SU14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general	
08/04/2026	WEDNESDAY	OG1.2 Define and discuss neonatal mortality and morbidity including neonatal mortality and morbidity audit; Lecture; Horizontal integration with Pediatrics	OG1.3 Define and discuss still birth and abortion; Lecture	CM 11.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases (Laboratory include NLEP)	
09/04/2026	THURSDAY	PE 30.14 Discuss the etio-pathogenesis, clinical features and management of Duchene muscular dystrophy	PE 18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and evaluation Vertical integration with community medicine	AETCOM- FMT	

[Handwritten signature]
